

SECTION 1: MATRIX:

HIGHLIGHTS: Provides for two separate qualification options for borrower with unique situations:

- **Option One** – Asset Qualification
 - Qualified based on verified liquid assets
 - No employment or income on 1003
 - 4506T not required
 - DTI – Not Calculated
- **Option Two** – Self-Employed using **Bank Statements** with or without Asset Amortization
 - One borrower must be self-employed and may have a W-2 co-borrower
 - Self-Employed borrower must have minimum 2 years of self-employment in the same business
 - Self-employed borrowers qualified using personal and/or business bank statements for the most recent 12 month period
 - If business bank statements used, a Profit and Loss (P&L) statement may be required
 - Assets must be traditionally documented
 - DTI up to 50%
 - Borrower may use an asset amortization formula to derive additional qualifying income

Borrower can be a first time homebuyer without any rental history. However, if the borrower has rent or mortgage history, it must meet credit requirements.</p> <p><u>The following requirement applies to Option #2 – Bank Statements</u> Borrowers must have satisfactory consecutive 12 month rent or mortgage payment history in the 3 years prior to application. Example: Borrower must have paid monthly rent or mortgage payment for at least one month during this prior 3 year period and for the previous consecutive 11 months. The entire 12 month history must be consecutive but it does not have to be fully contained within the prior 3 year period</p> <p>For borrowers who currently own all property free and clear there is no mortgage/rent history requirement.</p>
<p>Income / Asset Verification Option #1</p>	<p>Cash out proceeds from the subject transaction may not be used for qualifying or for reserves on the Asset Qualification program.</p> <p><u>Option #1 – Asset Qualification</u> Employment and Income are not required to be disclosed on the 1003 loan application. If not disclosed, please enter “Not applicable to this loan” in the respective fields. Business phone number must be reflected on the 1003 (for consumer contact purposes only)</p> <p>Assets must be verified sufficient to cover the loan amount request with sufficient additional assets to cover all revolving, installment, alimony/child support, and mortgage related expenses for a period of no less than five (5) years, plus the separate reserve requirement based on loan amount listed in the Assets section of these guidelines.</p> <p>Installment debt that is not secured by a financial asset – including student loans, automobile loans, and home equity loans – must be considered part of the borrower’s recurring monthly debt obligations if there are more than 10 monthly payments remaining. Paying down installment debt to <= 10 remaining payments to avoid including in additional reserve calculation is not allowed. Paying off installment debt completely is allowed.</p> <p><u>IMPORTANT:</u> The <u>ending balance</u> on the most recent asset statement (s) must be sufficient to cover the required assets including:</p> <ul style="list-style-type: none"> • Loan Amount Request • Down payment • Closing Costs and Prepays • Five (5) years of other debt/expenses described above • Separate reserve requirement <p><u>Eligible Asset Types (Loan Qualification)</u> Considered assets must be comprised of the following readily marketable assets which must be available to the borrower and are limited as follows:</p> <ul style="list-style-type: none"> • Bank Deposits – Checking, Savings, Money Market accounts = 100% • Publicly traded stocks and bonds = 90% (stock options not allowed) • Mutual Funds = 90% • Retirement Accounts <ul style="list-style-type: none"> ▪ 401 (k) plans or IRA, SEP, or KEOUGH accounts = 80% (These can only be used if distribution is not already set up) <p>NOTE: Assets must be in liquid or semi liquid form, no privately held stock, deferred compensation or non-regulated financial companies</p> <p><u>Note: For eligible asset types, any debt tied to that asset must be netted out. <p>Income / Asset Verification Option #2</p>	<p><u>Option #2 – Self-Employed using Bank Statements with or without Asset Amortization.</u></p> <p>Note: At least one of the borrowers must be self-employed to qualify for this program.</p> <p><u>Employed Borrowers:</u> Most recent paystub including year-to-date earnings (covering minimum of 30 days) and two years W-2s; or Traditional Written Verification of Employment with 30 days of paystubs and 2 years W-2s. Must have 2 years continuous employment in the same line of work. Gaps of 90 days or less may be accommodated with adequate explanation. W-2 only and/or 1099 transcripts from the IRS are required for the wage earning or retirement income co-borrower.</p> <p>All borrowers must be qualified using current verifiable income – NOT Projected Income</p> <p><u>Self-Employed borrowers:</u> A borrower with a 25% or greater ownership interest in a business is considered self-employed and must be evaluated as a self-employed borrower. Borrower must document two years current continuous self-employment with business license or statement from corporate accountant/CPA confirming the same. Other documentation from third parties may be acceptable on a case by case basis (e.g., letter from an attorney). Acceptable business license must be verified by third party (e.g., government entity, borrower’s business attorney). Borrowers whose self-employment cannot be independently verified are not eligible. In instances where a license is not required (e.g., choreographer), a letter from a CPA confirming employment will be considered in lieu of a license on a case by case basis.</p> <p><u>1099 Contractor</u> A borrower who is a “1099 contractor” may be considered self-employed for this program with confirmation from a COA that the borrower is a 1099 contractor and files Schedule C or Schedule E with the IRS (personal tax returns)</p>

Non-taxable income

Non-taxable income may **NOT** be grossed up for qualifying.

Service & Tip Industry

Due to the cash nature of the service and tip industry, those borrowers may participate the bank statement program. Full documentation is required for employment. Base salary is verified with pay stubs and W2s. Qualified tips are averaged over time. Utilize the bank statement analysis to determine tip income. Borrowers whom obtain their income primarily in the form of service fees or tips, are not required to have a business license. At least two corporate reference letters are required. Previous 12 months bank statement deposits will be utilized to calculate income. **No P&L is required.**

Retirement and Other Income: Retirement income and other fixed documentable income is allowed for qualifying income for both a self-employed borrower and for any non-self-employed or retired co-borrower. Non-taxable income may NOT be “grossed up” by any amount.

- Other non-retirement income from the self-employed borrower (e.g., W-2 wage income) may be used. This other income must be fully documented (i.e., may not use the bank statement documentation).

Rental Income:

Rental income used for qualification must be documented with lease(s). Use 75% of lease rent amount minus PITIA for net rental income.

- Airbnb or similar such rentals are not acceptable.
 - For non-subject (other) properties, Airbnb income is allowed per the below formula:
Use a 12-month average (from bank statement deposits) of the Airbnb deposit income LESS a 25% vacancy factor and less the PITIA on the non-owner property to calculate either a negative or positive for the rental property.

An expired lease agreement that has verbiage that states the lease agreement becomes a month-to-month lease once the initial lease/rental term expires is allowed.

Boarder Income:

Income from boarders in a borrower's principal residence or second home is not acceptable qualifying income with the exception of the following:

- When a borrower with disabilities receives rental income from a live-in personal assistant, whether or not that individual is a relative of the borrower, the rental payments can be considered as acceptable stable income in an amount up to 30% of the total gross income used to qualify the borrower. Personal assistants typically are paid by Medicaid Waiver funds and include room and board, from which rental payments are made to the borrower.

Borrower Affirmation for Accurate Income and Debts

A Borrower Affirmation document must be signed at closing confirming the income and loan terms on the final 1003.

Self Employed Income Calculation

Bank statements are used to calculate and show consistency of income for the self-employed borrower.

If personal and business bank activity are combined in one bank account: Borrower is to provide the most recent twelve (12) months consecutive bank statements from the same account. The deposits will be analyzed and averaged to determine monthly income.

See **Income Evaluation** below for income determination.

If the borrower maintains separate bank accounts for personal and business, only personal bank statements will be used for qualifying. The borrower is to provide the most recent twelve (12) months consecutive personal bank statements and three (3) months business bank statements (to support the borrower does maintain separate accounts). The deposits will be analyzed and averaged to determine monthly income. If the analysis is inconclusive (e.g. large fluctuations in deposits) the borrower **MUST** provide an additional twelve (12) months personal bank statements showing the same activity levels. P&L is not required, however, when a P&L is provided, monthly income will be determined from the P&L and verified by the bank statements.

For both the combined bank statements and the separate bank account scenarios, beginning and ending balances will be evaluated and must support the overall transaction requested. Low beginning and/or ending balances may require additional documentation up to and including 1040s, 1065s, 1120s, etc.

Option to use only business bank statements

Borrower is to provide the most recent twelve (12) months consecutive business bank statements. If the borrower has separate business and personal accounts and the personal account does not show sufficient deposits to qualify, underwriter may use **Income Evaluation** below to determine qualifying income.

Income Evaluation

Underwriter will evaluate the type of borrower/business using a **50% expense factor** applied to business related deposits. **If the 50% expense factor allows the borrower to qualify then no further income documentation is required.**

If the type of business operates more efficiently or typically has a materially different expense factor (higher or lower), the underwriter may use one of the following:

- A CPA or tax preparer produced Profit and Loss (P&L) statement that has been Reviewed by the CPA or tax preparer, the CPA or tax preparer states it has Reviewed the P&L in writing, and the P&L and accompanying statement do not have unacceptable disclaimer or exculpatory language regarding its preparation; **or**,
- A CPA or tax preparer produced written statement specifying the actual expense ratio of the business (including cost of goods sold and all other business expenses) based on the most recent year’s filed tax returns. Such statement shall not include unacceptable disclaimer or exculpatory language regarding its preparation

The expense factor per the P&L or CPA or tax preparer produced statement must be reasonable. The annual deposits on the bank statements must be at least 75% of the gross receipts per the P&L. If a CPA or tax preparer produced statement is provided, apply the stated expense factor to calculate the qualifying income.

Examples:

50% expense factor

Total business related deposits = \$240,000
 minus 50% expense factor = \$120,000
 Usable business related deposits for qualification = \$120,000

Optional CPA-Reviewed P&L (expense factor extracted from P&L)

Gross receipts from P&L = \$200,000
 Expenses from P&L = \$90,000
 Expense factor = Expenses / Gross Receipts = \$90,000 / \$200,000 = 45%
 Total business related deposits = \$180,000
 minus 45% expense factor = \$81,000
 Usable business related deposits for qualification = \$99,000

Optional CPA-prepared Expense Factor

Total business related deposits = \$240,000
 CPA-prepared expense factor: 40%
 minus 40% expense factor = \$96,000
 Usable business related deposits for qualification = \$144,000

When the optional P&L is used:

Expenses must be reasonable for the type of self-employment. The P&L will be used for qualifying; revenue must be supported by the bank statements provided. Annual deposits on the bank statements must be at least 75% of the gross receipts per the P&L. **Example:** Revenue per P&L is \$100,000 and total business deposits into the bank account are \$80,000, the loan would meet the requirement. If the deposits were less than \$75,000 the loan would not meet the guidelines.

Up to 24 months of bank statements may be required at the underwriter’s discretion. Income situations that may require additional bank statements for review **include but are not limited to** inconsistencies in cash flows consistent with occupation type or seasonal types of self-employment. Examples include seasonal income such as that received by a tax accountant whose primary income occurs in the first half of a year, or large isolated payments such as those received by political consultants or promoters who are paid for a specific events or contracts and have a history of

similar types of payments.

Unacceptable Deposits/Excluded Deposits – not limited to the following:

- Cash advances from credit cards
- Income sources already taken into account
- Non-business related account transfers
- Tax refunds
- Product returns/credits
- Gift funds
- Credit line deposits/business financing

Non-sufficient funds

Non-sufficient funds (NSF) is a term used to indicate that a demand for payment (a check) cannot be honored because insufficient funds are available in the account on which the instrument was drawn. In simplified terms, a check has been presented for clearance, but the amount written on the check exceeds the available balance in the account.

An NSF will be counted against the borrower when the borrower’s account is overdrawn. This is the same for “non-sufficient funds” as “over-drafting,” whether or not such “overdraft protection” is enabled.

Returned check situations (e.g., from borrower’s accounts receivable) that cause NSFs will be considered separately. Returned checks that do not result in a negative balance are not considered NSFs.

A distinction is made between overdrafts and NSFs covered with borrower’s own funds (e.g., savings accounts, “sweep” accounts) versus use of a line of credit or credit card accounts to cover NSFs. In order to use this treatment there cannot be a fee associated with curing an overdraft.

Excessive NSFs will be highly scrutinized and may cause the loan to be deemed ineligible.

The bank statements should show a trend of ending balances that are stable or increasing over the 12 month (or other examination) period.

Decreasing income trends must be explained; additional documentation may be required. Low ending balances must be explained; additional documentation may be required. Net deposits must not reflect any other income sources already taken into consideration (i.e. deduct SS payments, W-2 wage earnings, etc., that have already been used for income calculation).

Asset Amortization

The borrower may supplement self-employment income with Asset Amortization.

Asset amortization is a calculation used to generate a monthly income stream from a borrower’s personal assets. It can be combined with other income such as Social Security, Pension or other investment income. There is no age restriction.

Eligibility Requirements (Asset Amortization)

- Available for Primary Residence and Second Homes Only
- Borrower and Co-Borrower must be individual or co-owners of all asset accounts with no other account holders listed on the documentation
- 100% of eligible assets must be verified and will be amortized over the term of the loan
- All assets must be in a U.S. financial institution—No Foreign Assets
- The sum of eligible assets as defined are net of any discounts and minus any funds used for closing and/or minimum reserves required for the program.

Eligible Asset Types (Asset Amortization)

Considered assets must be comprised of the following readily marketable assets which must be available to the borrower with no penalty and are limited as follows (after deduction of any funds used for down payment, closing costs or reserves):

- Bank Deposits – Checking, Saving, Money Market accounts = 100%
- Publicly traded stocks and bonds = 90% (stock options not allowed)
- Mutual Funds = 90%
- Retirement Accounts
 - 401(k) plans or IRA, SEP, KEOUGH accounts = 80% (These can only be used if distribution is not already set up)

For eligible asset types, any debt tied to that asset must be netted out.
 Example: Stocks bought on margin or 401(K) loan against the 401(K) account.

Assets must be in liquid or semi-liquid form, no privately held stock, deferred compensation or non-regulated financial companies.

Ineligible Asset Types (Asset Amortization)

- Business funds
- Non-liquid assets (automobiles, artwork, business net worth, etc.)
- Life insurance (neither face value nor cash value is allowed for asset amortization)

Asset Amortization Calculation Policy:

- Eligible asset amount to be amortized over the term of the loan (e.g., 360 months for a 30 year loan, 180 months for a 15 year loan)

Example of Asset Amortization for 30 year loan:

Savings Account Balance \$100,000 (\$100,000 Usable toward calculation)

Stock Fund Balance \$100,000 (\$90,000 Usable toward calculation)

Mutual Fund Balance \$10,000 (\$9,000 Usable toward calculation)

Total Usable toward calculation = \$199,000/360 = \$552.78 monthly income

Restricted Stock Units (RSUs) are not eligible for income or reserves.

Interested Party Contributions (IPCs) / Seller Concessions

Interested parties include, but are not limited to, the property seller, the builder/developer, the real estate agent or broker, or an affiliate who may benefit from the sale of the property and/or the sale of the property at the highest price possible. A lender or employer is not considered an interested party to a sales transaction unless it is the property seller or is affiliated with the property seller or another interested party to the transaction.

Limitations on Other Real Estate Owned

The following requirements apply to Options #1 and #2:

Loan/Property restrictions per borrower are as follows:

- Borrowers limited to eight (8) loans with WesLend and/or its investors not to exceed \$2,000,000.
- If borrower only has one (1) loan with WesLend and/or its investors including the subject property, that loan may exceed \$2 million (up to the guideline maximum herein).
- Borrowers with > 15 financed properties are not eligible for any 2nd home or investment property transactions (purchase, rate/term, or cash-out)
- Borrower may have WesLend and/or its investors financing on a maximum of 10% of the properties in a PUD or condominium project.
 - For projects ≤ 10 total units, financing on a maximum of 1 unit is allowed

	<p>WesLend and/or its investors is limited to a maximum overall concentration of 20% in any Florida condominium project. Property Types

Eligible

- 1-unit single family residences (attached and detached) and PUDs (attached and detached)
- 2-4 unit properties (within matrix parameters)
- Condominiums - FNMA Eligible
 - Both FNMA Condo Project Manager (CPM) and FNMA Limited Review are allowed
 - Detached Condo units that are Principal Residences may be processed with Limited Review (See FNMA B4-2.2-03, Limited Review Process for Detached Condo Units)
 - Non-Warrantable Exception:
 - The FNMA investment property concentration limits (i.e., the percentage of non-owner occupied properties within a project) do not apply, and
 - Minimum 50% of units in project (or subject legal phase, considered with prior legal phases) must be sold or under contract.
 - ◆ Note: For reference, FNMA (B4-2.2-02) requires that investment property transactions on attached units in established projects (including two-to four-unit-projects), have at least 50% of the total units in the project conveyed to principal residence or second home purchasers. This requirement does not apply if the subject mortgage is for a principal residence or second home.
 - Single Entity Ownership Exception:
 - Projects in which a single entity (the same individual, investor group, partnership, or corporation) owns up to and including 25% of the total number of units in the project will be considered on a case by case basis.
 - ◆ Note: For reference, the FNMA (B4-2.1-02) acceptable limit is:
 - Projects with 2 to 4 units = 1 unit
 - Projects with 5 to 20 units = 2 units
 - Projects with 21 or more units = 10% of total units

Limited Review (See FNMA B4-2.2-02, Limited Review Process for Attached Condo Units)

Limited Review eligibility criteria for **attached units** differ depending upon the occupancy type and LTV/CLTV/HCLTV ratios, and are as follows:

Occupancy Type	Maximum LTV/CLTV
Principal residence	80%
Second home	80% (exceeds FNMA)
Investment property	72% (exceeds FNMA)

Note: Mortgages secured by attached units in **new** condo projects are not eligible for Limited Review.

See table below for LTV/CLTV restrictions on Limited Review for **Florida** condominiums. (See FNMA B4-2.2-04)

Florida Attached Units in Established Condo Projects – Limited Review	
Occupancy Type	Maximum LTV/CLTV
Principal Residence	70/90%
Second Home	70/75%
Investment property	Not Eligible

New or newly converted condo projects in Florida with attached units are **not required** to be approved by Fannie Mae through the PERS process (B4-1.1-02). WesLend’s investor will conduct its own review and approval of Florida condo projects. **New or newly converted condo projects in Florida are limited to 60% LTV/CLTV. WesLend and its investors is limited to a maximum overall concentration of 20% in any Florida condominium project. This limitation is per project and not per borrower.**

Mixed Use properties are allowed per Fannie Mae guidelines (B2-3-04)

(Examples: Business use in addition to residential use, such as property with space aside for a day care facility, a beauty or barber shop, or a doctor’s office)

- The property must be a one-unit dwelling that the borrower occupies as a principal residence
- The borrower must be both the owner and the operator of the business
- The property must be primarily residential in nature
- The dwelling may not be modified in a manner that has an adverse impact on its marketability as a residential property.

	<p>The property must meet appraisal requirements for mixed use properties (B4-1.4-07) <u>Appraisal must indicate:</u></p> <ul style="list-style-type: none"> • A detailed description of the mixed-use characteristics of the subject property • That the mixed use of the property is a legal, permissible use of the property under the local zoning requirements • Any adverse impact on marketability and market resistance to the commercial use of the property • Market value of the property based on the residential characteristics, rather than of the business use or any special business-use modifications that were made. <p>Ineligible</p> <ul style="list-style-type: none"> • Acreage greater than 20 acres (appraisal must include total acreage) • Agricultural zoned property • Condo hotel • Co-ops • Hobby Farms • Income producing properties with acreage • Leaseholds • Log Homes (may be eligible on a case-by-case basis) • Manufactured housing • Modular homes • Properties subject to oil and/or gas leases (may be eligible on a case-by-case basis) • Title may not be held in a business name • Unique properties • Working farms, ranches or orchards

VA Residual Income Calculation

(Used for Option #2 when bank statements are used for qualifying)

Use VA Form 26-6393 Loan Analysis to calculate residual income.
<http://www.vba.va.gov/pubs/forms/VBA-26-6393-ARE.pdf>

1. Calculate the total gross monthly income of all occupying borrowers.
 (Note: Do not gross up non-taxable income for the residual income calculation)
2. Deduct from gross monthly income:
 - a. State income tax
 - b. Federal income tax
 - c. Municipal or other income tax
 - d. Retirement or Social Security tax
 - e. Proposed total monthly fixed payment (total mortgage payment + all recurring monthly obligations)
 - f. Estimated maintenance and utilities (use \$0.14 per square foot of gross living area)
 - g. Job related expenses (if applicable – Employee Business Expense from IRS Form 2106)
3. Subtract the sum of the deductions above from the total gross monthly income of all occupying borrowers.
 The balance is residual income.

Compensating Factor

Residual income may be cited as a compensating factor provided it can be documented and it is at least equal to the applicable amounts for household size and geographic region found on the Table of Residual Incomes by Region.

To use residual income as a compensating factor, count all members of the household of the occupying borrowers without regard to the nature of their relationship and without regard to whether they are joining on title or the note.

From the table, select the applicable loan amount, region and household size. If residual income equals or exceeds the corresponding amount on the table, it may be cited as a compensating factor.

Exception:

The lender may omit any individuals from “family size” who are fully supported from a source of verified income which is not included in effective income in the loan analysis. These individuals must voluntarily provide sufficient documentation to verify their income to qualify for this exception.
